Founded more than three decades ago, DPS Software are one of the longest-standing companies in their industry offering DPS icon- RGBhosted IT solutions and case management software to law firms from the UK and abroad. Serving over 600 practices and 15,000 individual users, DPS have built a strong and growing market position thanks to their award-winning products. Our case management systems cover Conveyancing, Crime, Personal Injury, Wills & Probate and are complemented by a fully integrated accounting package and digital dictation systems.
