Security UnLimited have been assisting Solicitors and legal teams around the globe since 2003. Our range of services include private investigations, surveillance, process serving, vehicle repossessions and statement taking. All of this is backed by concise reporting and any material evidence that we gather through our investigations. Our process servers are amongst the very best in the business and complete their work in a professional manner and adhere to all CP rules. Working around the clock we aim to serve any legal documents in a timely fashion and generally act within 24 hours of receipt. For urgent cases we can arrange to have documents collected from your offices or court and make the 1st attempt at service sameday. We specialise in difficult cases, ie-traveller sites, gone aways, elusive respondents, evictions, etc. Give us a call and see if we can help. Choosing the correct process servers means that you won't have to reinstruct once it goes wrong. Time and again we receive telephone calls from solicitors that have issued instructions to a process serve company only to find out weeks later that they in turn had subbed the instruction out and no attempts at service had been made. Whilst giving us all in the investigation sector a bad name it is also highly embarrassing for the instructing solicitor to have to tell their client. CALL NOW-You won't be disappointed.
