Walker Prestons have for 10 years been the guardian angels for the stricken, injured and affected, working tirelessly to help them receive the justice that they deserve. Walker Prestons operate according to the strict principle that people who are suffering due to the negligence of others should not be forced to suffer alone and should be aided in their recovery and recuperation in any way possible. Walker Prestons' team of accident injury solicitors offer their legal services to anybody who has suffered injury or illness at the hands of another regardless of the circumstances. From illnesses contracted due to dangerous conditions at work to injuries accrued in a road accident; Walker Prestons can help the injured party receive the compensation required to cover any loss of income or medical bills. Those who come directly to Walker Prestons with a compensation claim may be entitled to receive a £1,500 advance and 100% of the compensation.
