Carters Solicitors has been around a long time. Long enough to know how to deliver the first class friendly service that clients deserve. Clients can contact us in all of the usual ways, but being on the high street, means that Carters will always be able to provide face to face help and support to those who prefer it that way. We also know that clients want value for money. For this reason we offer free initial consultations and fixed fees. Carters will always give you jargon free common sense advice. Each Department at Carters is headed by an experienced Solicitor. Carters is accredited by the Law Society. We are also members of the Law Society's Quality Conveyancing Scheme. We have a contract with the Legal Aid Agency.
