MWInvestigations are a versatile, modern UK investigation and consultancy company that's different. We offer optional superior digital systems to more efficiently obtain information and fact, ensuring data and client losses become a thing of the past. All types of Digital Investigative Solutions (we do paper too!) Want a client to sign up to a CFA or legal document. Want a statement or a locus report? Look no further. We use competition beating means to obtain CPR compliant evidence, legal documents and client signing documentation digitally. We are able to conduct this work on the road, a great advantage for securing business and saving expense. Personal Injury Investigations/Statements/Locus Reports/Enquiries We adopt the same standards in investigating all types of personal injury situations. These types of cases make up the bulk of legal claims and we can visit clients and witness statements can be taken to suit your needs. Our primary investigators are all PEACE interview trained and use their skills and experience to obtain accurate information. We have excellent experience of dealing with all asbestos related conditions, accidents at work and even chemical related incidents and fatal incidents and complicated Mesothelioma cases. This has included the taking of statements in hospital settings for the most urgent of situations. We do not use any agents for asbestos or major case statements, our operations manager has attended upon hundreds of clients throughout the UK in place of solicitors. Our statements have been of sufficient quality and depth to have been used evidentially in the High Court as would be expected of a senior solicitor. Investigative research

(including historical WITNESS AND EMPLOYER research) We have helped win complex civil cases researching many different subject matters including, the forerunners of British Steel, ICI, British Chrome, The UK Paper Industry, The UK Mining and Power Station Industry, Electrical wiring and cables in the 20th Century, Natural Forming Minerals, Oil and Steel Works, former UK Companies and International Businesses. In doing these enquiries we have had successful case conclusion, including locating historic witnesses to win unlikely cases. Our research work database of witnesses and employers, has been used to win seemingly lost cases, including Passmore V Evan Cook Ltd, 5/12/12, which saved lawyers £100,000's and gained the widow £170,000 in compensation. Bespoke Enquiries Fraud reinvestigation and counter investigation. Bespoke CCTV evidence collection and viewing (on scene). Accompanied Viewings. Surveillance/Observations with digital mastering services. Many other service areas, including scene inspections, face 2 face referee validation and data solutions. We also have a unique help & liaison service for serious and catastrophic injury cases where we have a presence in hospitals.
