dadcheck®gold belongs to Complement Genomics Ltd, a long established (April 2000), reliable, highly recommended and trusted DNA testing company. dadcheck®gold is designed to give answers to paternity and relationship questions using DNA testing technology. This service is designed specifically for use by professionals from the legal sector, by Local Authorities and by social services. We have our own UK based and ISO/IEC 17025 accredited laboratories, plus UK based customer services. We are proud to say that we are on the Ministry of Justice list as a company that is accredited as “a body that may carry out parentage tests directed by the civil courts of England and Wales under section 20 of the Family Law Reform Act 1969”. Hence we look forward to servicing your requirements for legally admissible data. This includes Family court proceedings, submissions to the Child Maintenance Service, the Child Support Agency, the Registrar of Births and the Home Office (Immigration). We have also developed considerable expertise in the area of surrogacy.
