SGI Consultancy Limited offers a support service to the Criminal Defence Sector covering all stages of the process from the first interview at the police station all the way through to trial proceedings at the Crown Court. Our Accredited Police Station Representative is a former Detective Sergeant with extensive knowledge of serious and organised crime and law enforcement tactics and policies. We offer a caseworker service on a full range of offences and work directly with appointed Counsel on Crown Court matters and in doing so removing a great deal of the work associated with cases of this nature from the Solicitors. We also offer a full witness care package that includes tracing, interviewing and statement taking when your clients provide you with details of those who may be able to assist in their defence.
