We are the largest practice in central Golders Green. Much of our work involves protection and (always the better way) prevention but we also deal with disputes when they arise, and these can relate to your employment, your family, your property or your business. We encourage mediation as the swifter, less stressful and less expensive way to resolve disputes. We can protect you when you buy a property, grant or take a lease, your family wealth (Wills, Lasting Powers of Attorney, Probates) We Apostillise documents for you, increasingly needed for British and Foreign purposes. We have links with other professionals and firms and can provide a range of services. We work for clients who are individuals and businesses across England and further afield. We can charge by hourly rates, fixed fees, blended rates and conditional fees depending on the client needs and the nature of the work. Our work may be funded privately, by insurance policies or by conditional fees. We offer free and fixed fee interviews because you need to meet us before you can consider entrusting us with your work; and we need to advise you on your options before we and you can decide on the best way we can work for you. Our office is close to the Golders Green Clock Tower and opposite the tube and bus station. There is parking nearby. We are open during our office hours from Monday to Friday but we can also arrange out of hours appointments if needed.
